LENGTH OF THE MISSION:

Three years (01/02/2020 – 31/01/2023).

OUTLINE OF THE PROJECT:

Terres Univia is the inter-branch organisation of vegetal oils and proteins in France, created in 2015 from the fusion of UNIP and ONIDOL. Terres Univia is recognised as an inter-branch body by the decree of 20 February 2015. The organisation brings together the main trade associations and federations concerned by the production, trade, transformation, and use of oilseed (rapeseed, sunflower, soy, flax, olive) and protein-rich plants (peas, field beans, lupin, alfalfa, beans).

PSPO is a sector organisation representing oilseed processing industry in Poland that brings together all the leading fat industry players. The Mission of the Polish Association of Oil Producers is by acting to establish conditions for competitive development of the Polish oilseed industry. Established in 2007. More info: www.pspo.com.pl

Terres Univia and PSPO, with the support of an implementing body (advertisement / communication agency) – whose selection is the topic of another call for proposals – will implement over a period of 3 years (01/02/2020 – 31/01/2023) an agricultural promotion programme submitted to the European Union in April 2019 and with expected results in October 2019. The activities and campaign results need to be evaluated by an independent evaluation body, which is the aim of this call for proposal. The implementation and evaluation of this promotion programme is therefore conditional to the selection of the programme by CHAFEA in October 2019.

The promotion programme would be implemented in the French and Polish markets. It would be a B2C programme. The message on the “oils” product will be targeted towards consumers and opinion-leaders. The mix of activities will include web, social media, TV, media actions, as well as some targeted events with opinion-leaders.

The promotion programme aims at:

- Improving the knowledge level of consumers on vegetal oils, as well as the image of the product.
- Increasing oils sales in the targeted countries and therefore increasing the market shares of EU companies

In application of the EU regulations, the promotion programme must be evaluated by an external evaluation body, in order to guarantee the respect of planned deliverables, costs and objectives. The selected evaluation body will have to take into account for each planned action the output, result and impact indicator. This call for proposals covers 3 annual reports (one at the end of each programme year, each showing the situation at the start and at the end of the programme year in terms of the chosen impact indicators/programme objectives), as well as a final global report covering all 3 years of the report, synthesising the 3 annual reports and showing how the programme reached its objective compared to a “point zero” at the beginning of the campaign before the start of promotion activities.

The promotion programme should end on 31/01/2023, a date after which all costs will be final and the final ex post evaluation can take place.
